Morgan Ellis

Senior Backend Engineer | Payments and Distributed Systems
Bengaluru, Karnataka, India

Summary

Backend engineer with 7 years of experience building payment and ledger services in Go and Java. I care about reliable systems, clear on-call runbooks and mentoring the engineers around me.

Experience

Lumen Pay

4 years 10 months

Senior Backend Engineer

April 2022 - Present (2 years 7 months)
Bengaluru, Karnataka, India

- Led the move of card settlement from a nightly batch to an event-driven service in Go and Kafka, cutting settlement time from 9 hours to 40 minutes
- Designed an idempotent ledger API on PostgreSQL that handles 3,000 requests per second at peak
- Mentor four engineers and run the payments on-call rotation

Backend Engineer

January 2020 - March 2022 (2 years 3 months)
Mumbai, Maharashtra, India

Built the merchant onboarding service in Java and Spring Boot and reduced manual KYC reviews by 35% within two quarters.

Added contract tests between the onboarding and risk services, catching breaking API changes before release.

Brightline Logistics

Software Engineer

July 2017 - December 2019 (2 years 6 months)
Pune, Maharashtra, India

- Wrote route-assignment jobs in Python that matched 20,000 daily parcels to delivery vans across 14 city depots
- Moved the parcel-tracking database from MySQL to PostgreSQL with zero downtime, using dual writes and a staged read cutover
- Built Grafana dashboards for depot managers to follow late deliveries by route

- Cut the nightly reconciliation job from 3 hours to 25 minutes by replacing

row-by-row updates with batched upserts

Northstar Labs

Software Engineering Intern

January 2017 - June 2017 (6 months)

Education

Westbrook Institute of Technology

Bachelor of Engineering - BE, Computer Science · (2013 - 2017)

Lakeside College

Higher Secondary Certificate, Science · (2011 - 2013)
