

Jordan Avery

jordan.avery@example.com | +91-9000000000 | Pune, India

PROFESSIONAL SUMMARY

Data Scientist with 4 years of experience building forecasting and ranking systems for retail and logistics clients. Uses **Python, SQL, Spark** and cloud MLOps to turn data into measurable business outcomes.

WORK EXPERIENCE

Northwind Analytics - A Contoso Group Company Pune, India
Senior Data Scientist, March 2024 - Present
Data Scientist, July 2021 - March 2024

Demand Forecasting Platform

- Built a demand forecasting service on Google Cloud using **Prophet** and gradient boosted trees, covering 1,200 stores and replacing a spreadsheet process.
- Automated weekly retraining and backtesting with Airflow, keeping forecast error under 8% across seasonal peaks

Route Optimization Analytics

- Designed a routing analysis in Python that combined GPS pings, delivery windows and depot capacity
- Reported late-delivery hotspots to regional managers across three **distribution networks**

Customer Churn Model

- Trained an XGBoost churn model with engineered tenure and usage features, **lifting retention campaign response by 15%**
- Deployed the model behind a FastAPI service with drift monitoring

Blue Harbor Bank Mumbai, India
Analytics Intern, January 2021 - June 2021

- Cleaned loan application data in SQL and built Tableau reports for the credit risk team

SKILLS

Languages: Python, Scala, SQL, R **Frameworks:** Pandas, NumPy, PyTorch, and XGBoost

Tools: PostgreSQL, Tableau, Airflow, GCP, Excel

EDUCATION

Riverside Institute of Technology Chennai, India
B.Tech in Electronics Engineering(CGPA : 8.5/10) **2016-2020**

CERTIFICATIONS & INTERESTS

Certifications: Google Cloud Professional Data Engineer | Statistics for Data Science

Interests: Chess • Cycling • Photography
